06

01 **Problem statement**

Coordinate schedules with others

- Various time zones available for each person
- Difficult to find a common available time

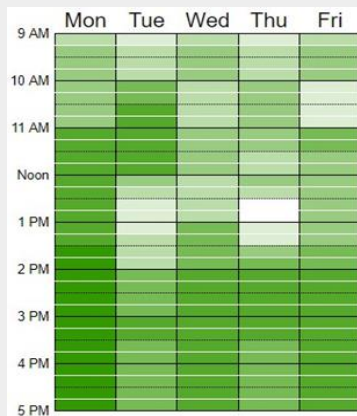

Coordinate schedules for other meetings

- Repeat the same work
 - It's annoying and a waste of time
-

02 **Related work & Current services**

Related work & Limits of current services

When2meet

- New meeting
→ need to recreate the data

되는시간

- Only one-on-one meeting
→ one has to choose from another one's available time (ex> Naver reservation)
-

03

Proposed Solution

Group schedule coordinating service based on personal-account database

Repeat each time (account X)

Multiple people

or

No repeat (account O)

1 to 1

Timecodi

No repeat (account O)

Multiple people

+ other functions

04

Main Function

Functions

1. All group members mark their available time zone for the meeting.
 2. Auto-generated vote: from the marked time zone.
 3. See your friends' available time zone.
 4. Save each meeting info
 5. Share to KakaoTalk : invite friends, send meeting info
-
